A NOTE FROM DAVE

I really can't figure out what happened to September. We all were worried about Dee Haynes' and Robert Frye's health problems and our impending move from Huffman, and the month just slipped by. I plan to have much more to report next month, but for now, let's just say 'Stand by for News.'

DEE'S RADIO SHOWS

Hi Radio Fans!

How would you like country fried chicken flavored with Scope mouthwash? Or, how about your waffles smothered in creamery butter and real maple syrup, flavored with Scope? A lot of us older folks who remember the old radio shows also have to put up with teeth glue. I have fewer of my own teeth these days and more of the type that have to be glued in. I asked my wife the other day to pick up some teeth glue. Yes, now everything I eat tastes like Scope mouthwash, but instead of throwing it away, I'll put up with it. But, in the meantime, why doesn't someone come up with teeth glue that tastes like steak or lobster or baked ham?

This has been an unusual month for both Dave and me, so we are going to take a short vacation from our successful writing career this month. I'll just say that we are still having good times at the shop every Saturday. Here's a candid shot of Ken Smith trying to steal the mike right off the portable radio while it is still on Chris Story's back.

We all had a good laugh. Ha Ha. Both Chris and Ken have excellent ideas for our future in the radio business. To find out what they are, why not attend a meeting or a Saturday morning session?

See you there.

MEETING TIMES

We meet nearly every Saturday of the month at 09:00 at the Alabama Power Building on Parkway East (aka Centerpoint Parkway) in Huffman. The organization's space is accessed from the rear of the building, so park around the back (by means of Huffman Road, which runs parallel to the Parkway). Entry is via the door on the right.

Come to the Monday Night Meetings, TOO, on the 4th Monday of the month at 7 PM!

FREE ELECTRONICS CLASSES

The first Saturday of the month, there are electronics classes free to members. Topics include test equipment, Resistors and Capacitance testing, Inductors and coil winding, to name only a few subjects!

We hope to see you there!
